This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

INTRODUCTORY.

INTRODUCTORY.

IT was a small number of loyal-hearted women that assembled in Washington on the 11th of October four years ago. But that sturdy few has been multiplied into thousands, and to-day, from Maine to California, from the Lakes to the Gulf, the name, Daughters of the American Revolution, is a synonym for love of country, veneration for our national flag, unremitting zeal in teaching the children of our land to love its institutions, respect its laws, and comprehend the duties and obligations of citizenship.

From dusty archives and musty manuscripts, they have unfolded to the light the hidden proof of the lives of their forefathers and mothers and they hold the pages open for us to read what they sacrificed for home and country. Through this knowledge we begin to comprehend the price of the legacy left, and to realize that if we hold this magnificent inheritance, in city, town and country, we must keep the camp fires of loyalty alive, that there shall be no wavering of devotion to the principles they planted, her institutions be kept pure, her laws just, her government upright.

The Daughters of the American Revolution have this work in hand. It will go on and on, and out from these Colonial struggles will come an American manhood that will build a structure for liberty to endure forever.

M. S. L.

THE ORGANIZATION OF THE SOCIETY.

THE ORGANIZATION OF THE SOCIETY.

THE National Society of the Daughters of the American Revolution was organized in the city of Washington, in the parlors of the Strathmore Arms, October 11, 1890, the Anniversary of the Discovery of America by Columbus.

The Society was incorporated under the laws of Congress June 8, 1891.

The Charter Membership, numbering 818, closed October 11, 1891.

The objects of this Society are—

(1) To perpetuate the memory and the spirit of the men and women who achieved American Independence by the acquisition and protection of historical spots and the erection of monuments; by the encouragement of historical research in relation to the Revolution and the publication of its results; by the preservation of documents and relics, and of the records of the individual services of Revolutionary soldiers and patriots, and by the promotion of celebrations of all patriotic anniversaries.

(2) To carry out the injunction of Washington in his farewell address to the American people, "to promote, as an object of primary importance, institutions for the general diffusion of knowledge," thus developing an enlightened public opinion, and affording to young and old such advantages as shall develop in them the largest capacity for performing the duties of American citizens.

(3) To cherish, maintain and extend the institutions of American freedom, to foster true patriotism and love of country, and to aid in securing for mankind all the blessings of liberty.

ELIGIBILITY.

The sole requisite for eligibility to membership in this patriotic and national Society is *proven lineal descent* from an ancestor who, with unfailing loyalty, rendered material aid to the cause of Independence as a recognized patriot, as soldier or sailor, or as a civil officer in one of the several Colonies or States, or of the United Colonies or States; or from the mother of such a patriot; provided that the applicant shall be at least eighteen years of age and acceptable to the Society.

SEAL.

The seal of the Society shall be one and seven-eighths of an inch in diameter, charged with the figure of a dame of the Revolutionary time

sitting at her spinning-wheel, with thirteen stars above her, the whole surrounded by a rim containing the legend, "Daughters of the American Revolution, 1776-1890," and the motto, "Home and Country."

THE INSIGNIA.

The insignia of the Society shall consist of a badge in the form of a spinning-wheel and distaff, to be worn on ceremonial occasions upon a bow of ribbon. The wheel is seven-eighths

of an inch in diameter and of gold, with thirteen spokes and a field of light-blue enamel upon its tire bearing the name of the Society in letters of gold. Upon its outer rim, opposite the ends of the spokes, are thirteen small stars, which may be set with precious stones at the discretion of the owner. Underneath the wheel is a golden distaff one and one-half inches long filled with silver flax. Upon the back of the wheel the registration number of the owner shall be engraved, and her name may be added. The ribbon to be worn with the wheel is dark blue with a white edge ribbed and watered, following the colors of Washington's staff. A rosette of the prescribed ribbon attached to a stick-pin may be worn as an informal badge upon ordinary occasions.

IN MEMORIAM.
